Sahariar Islam

Full Stack Engineer | Laravel/PHP | React.js & Next.js | Node.js/Express.js | AWS Certified Solutions Architect

Dhaka, Bangladesh | saharіar.islam.sabit95@gmail.com | +880 1909 642730 | linkedin.com/in/sahariar-islam-sabit | github.com/SahariarIslm

SUMMARY

Full Stack Engineer with 4 years of experience building and maintaining business applications, ERP systems, and eCommerce platforms, including 3+ ERP systems built end-to-end. Core strength in Laravel/PHP backend development — designing REST APIs, integrating third-party services and payment gateways, and working with MySQL at production scale — paired with solid React.js and Next.js frontend experience and growing Node.js/Express.js backend capability. AWS Certified Solutions Architect – Associate.

PROFESSIONAL EXPERIENCE

Software Engineer — Yes Bangladesh **Jan 2026 – Present**

- Building yes-sme, an SME platform for Yes Bangladesh (sme.yesbangladesh.net), including a Node.js/Express.js web crawler that collects product data from external websites and feeds it into the Laravel backend via REST API for automated product creation.

Software Engineer — SJ Innovation LLC **Jun 2024 – Mar 2025**

- Developed and maintained 6+ full-stack web projects (WordPress and Laravel Nova), designing, coding, testing, and debugging with PHP, Laravel, React, and TypeScript.
- Delivered features 30% faster and reduced deployment issues by 25% through improved development workflow.
- Integrated 5+ third-party payment gateways and implemented REST APIs; optimized AWS (EC2, S3) infrastructure for scalability and performance.

PHP Developer — itDAY India **Mar 2023 – Jun 2024**

Bengaluru, India · Remote

- Developed and maintained a live ERP system with 10+ scalable modules using React, TypeScript, CodeIgniter, and Laravel, improving system performance and stability by 30%.
- Designed and integrated 15+ REST APIs and third-party services (Amazon Pay, PayPal, Stripe), supporting 1,000+ daily transactions.
- Optimized AWS EC2 and S3 infrastructure, reducing downtime by 25%; contributed to database schema design and analytics dashboards for 5,000+ records using Vite and Ant Design.

PHP Developer — Bdtask **Feb 2021 – Mar 2023**

Dhaka, Bangladesh

- Developed an eCommerce and store management system for CodeCanyon, serving 1,000+ products and 500+ users.
- Built responsive UIs (Bootstrap, jQuery, Charts) and integrated REST APIs with 5+ payment gateways (Amazon Pay, PayPal, Razorpay).
- Deployed across WHM, VPS, and shared hosting; improved deployment speed by 25%.

PROJECTS

Laravel-React-Next Ecommerce — Personal Project **Apr 2026**

- Built a full-stack eCommerce application in PHP 8.3.6 / Laravel 13 with React and Next.js frontends.
- Implemented Redis caching for improved performance and REST API integration between backend and frontend.
- Fully containerized with Docker for reproducible builds and deployment.

Laravel Next Shopping Cart System — Personal Project **May 2026**

- Built a shopping cart system with Laravel 12 and Next.js to showcase Laravel REST API development and Firebase integration.
- Implemented Firebase authentication, an SPA design approach with lazy loading, and optimized Laravel ORM queries.

Multi Store Ecommerce — Large-scale multi-store platform with ERP-grade accounting

- Built a modular multi-store eCommerce platform for CodeCanyon using PHP 7.2 and CodeIgniter 3, designed for easy scalability and microservice transition.
- Developed core modules including Inventory, Accounting, Payment Gateways, and Shipping, enabling seamless feature installation for clients.
- Improved scalability, maintainability, and deployment efficiency for multi-store eCommerce sites.
- Technologies: PHP 7.2, CodeIgniter 3, MySQL, jQuery, Bootstrap, REST APIs.

Conference Management System — USA-based educational conference organizer tool

- Led development of a PHP 8.2, Laravel Nova, and React-based conference platform for 5,000+ users.
- Designed a monolithic architecture with role management and AWS hosting.
- Increased engagement by 40% and cut deployment time by 30%.
- Technologies: PHP 8.2, Laravel Nova, React, MySQL, AWS.

React Redux Cart Page — Personal Project

- Built a front-end shopping cart page using React, Redux Toolkit (RTK), and Axios for API calls.
- Technologies: React, Redux, RTK, JavaScript.

SKILLS

Languages: PHP, JavaScript, TypeScript

Backend Frameworks & Libraries: Laravel, Laravel Nova, Laravel Modular Package, CodeIgniter, CodeIgniter HMVC, Node.js, Express.js, WordPress CMS, REST API Design, Third-Party API Integration, AI Agent API Integration

Frontend Frameworks & Libraries: React.js, Next.js, Ant Design, Tailwind CSS, Bootstrap, jQuery, Vanilla JavaScript

Databases & Messaging Systems: MySQL, SQL, PostgreSQL, Redis, RabbitMQ

REST API Development: JWT, Passport, Sanctum

Version Control & CI/CD: Docker, Git, CI/CD Pipeline Basics

Cloud & Architecture: AWS (EC2, S3), Solution Architecture

Project Management: Jira, Trello, ActiveCollab

Operating Systems: Windows, Linux

CERTIFICATIONS

AWS Certified Solutions Architect – Associate — Amazon Web Services — View credential

IELTS — Score: 7.5

EDUCATION

BSc in Electronics & Telecommunication Engineering — East West University Sep 2014 – May 2019

Result: 3.03 / 4.00 (Awarded Medhalalon Scholarship)

Higher Secondary Certificate — Al Amin Academy School & College 2013

Result: 4.10 / 5.00
